

**SDI Review Form 1.6**

Journal Name:	<a href="#">American Chemical Science Journal</a>
Manuscript Number:	Ms_ACSJ_23071
Title of the Manuscript:	<b>Compressed Stabilized Earth Block: A Green Alternative for Non-load Bearing Building Block in Developing Countries like Bangladesh</b>
Type of the Article	<b>Original research Articles</b>

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

**SDI Review Form 1.6**

**PART 1: Review Comments**

	<b>Reviewer's comment</b>	<b>Author's comment</b> <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<b>Compulsory</b> REVISION comments		
<b>Minor</b> REVISION comments		
<b>Optional/General</b> comments	<p>Authors present an interesting study on the reuse of blocks, including strength tests and environmental concerns. Results were not successful, but they pointed out a way to future researches. The experimental set is limited and could be amplified to evaluate other formulations. Fig 2 and 3 show just 3 and 4 experimental points. For clay CSEB with lime, no conclusion can be taken about the strength of sample containing 0 to 4% of lime.</p>	

**Reviewer Details:**
