Manuscript Number:	<b>Ms_AIR_36703</b>
Title of the Manuscript:	<b>Plasma Treatment –A tool to improve seed quality – A Review</b>
Type of Article:	<b>Minireview Paper</b>

**PART 2:**

<b>FINAL EVALUATOR’S comments on revised paper (if any)</b>	<b>Authors’ response to final evaluator’s comments</b>
<p><b>This paper presents a review for an important subject that is usually neglected: plasma treatment of seeds. Although all the important information is on the review, the text was not produced with appropriate language for scientific journals; in fact it seems to be produced for communications or dissemination of technological culture. Thus, I would like to suggest a final review proceeded by a researcher on this scientific matter, preferably one that is an English native speaker</b></p>
