Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ol style="list-style-type: none"> 1. Must replace the physical photo with diagram or graph; Add the actual testing or calculating data in the paper, and explain the detail logarithm calculating process as normal academic paper. 2. Explain the paper within the necessarily scope of understanding, not refer the reader to another literature as a must. 3. The content of the questionnaire should not add in the body of this paper, can be as peripheral in the end. 	
Minor REVISION comments	The format should also need to be revised in many parts in this paper.	
Optional/General comments	This is very hard to follow as a scholar paper, while somehow like a technical evolution brochure. Suggesting the author adopt a massive revise on this paper.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
