PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ul style="list-style-type: none"> - The manuscript requires serious proofreading. The use of punctuation was poor and this distorted the flow of reading and the meaning of the write-up. The results are confusing in the present state. This should be corrected and the manuscript resubmitted. - The methodology may not elicit all possible myths and misconceptions in the studied district. The use of a closed ended questionnaire limited the responses. - It is not clear how a sample representative of the district was obtained. - The authors claimed the calculated minimum sample size for this study is 100. Kindly provide the evidence.
