Editor’s Comments:

Thank you for your revised manuscript. Following improvements are mandatory:

- Fig 3, 4 & 5 are not clearly visible, it should be corrected. Authors should provide high quality images.

- Fig 6 should be color image otherwise could not differentiate different legend

- Reference should be common format, none of the reference following any one standard, it must be corrected.

- Authors may slightly modify the title, (e.g., "due to" words can be removed and include suitable connection).

Author’s Feedback:

- Fig 3, 4, 5 and 6 are corrected and provided with high quality.

- References are corrected

- Title also modified according to editors comment.
