### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of 'lack of Novelty', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:  
(http://www.sciencedomain.org/page.php?id=sdigeneral-editorial-policy#Peer-Review-Guideline)

### PART 1: Review Comments

<table>
<thead>
<tr>
<th>Reviewer’s comment</th>
<th>Author’s comment</th>
</tr>
</thead>
</table>
| **Compulsory** REVISION comments | Authors don’t declare if the polyps were extracted from consecutive colonoscopies  
Also, there are no comments regarding the occurrence of polyps in such an early age  
Hamartomatous polyps were too common ! (even though they are pretty rare ...)  
There mus be a justification for that | (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
| **Minor** REVISION comments | English grammar should be revised. There are some errors in the text | |
| **Optional/General** comments | | |
