

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	Asian Journal of Biology
Manuscript Number:	Ms_AJOB_32964
Title of the Manuscript:	Antimicrobial and anti-inflammatory effects of some marine red algae isolated from Quseir, Red Sea, Egypt.
New Title:	Antimicrobial and anti-inflammatory effects of two different species marine red algae isolated from Quseir, Red Sea, Egypt
Type of Article:	Original Research Article

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
<p>The revised manuscript is improved and in my opinion can be accepted for publication. I am recommending a minor correction in the title of the manuscript as mentioned bellow. As the word sea is used in the title therefore no need of the word "marine" again, it is just repetition.</p> <p>Antimicrobial and anti-inflammatory effects of two red algal species isolated from Quseir, Red Sea, Egypt</p> <p>OR..... The title of the manuscript can be written as</p> <p>"Isolation of two red algal species from Quseir Red Sea, Egypt: Antimicrobial and anti-inflammatory Analysis."</p>
