SDI Review Form 1.6

**PART 1: Review Comments**

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<p><b>Materials and methods needs urgent review. How can the authors write that</b> Samples were identified using Olasebikan and Raji (1998) 95 and Ido-Umeh (2003)? Please state METHODS OF SAMPLE identification.<b>What key what measures wee taken? Authors also wrote that</b> The food materials were observed under low power magnification of binocular microscope and 118 identified to the lowest possible taxon with the aid of keys provided by Mellanby (1975) and 119 Quigley (1977).</p> <p><b>Which method was used in this research? How did the authors determine full stomach , 1/2, 1/4, etc? This is important because the fish were not same WEIGHT. The stomach content and fullness were not related to the weight of the fish at all. Finally the result were not analysed for statistical significance. How can you say that fewer molluscs for eg is not more important than much plant materials?</b></p>	
<b>Minor</b> REVISION comments		
<b>Optional/General</b> comments
