

**SDI Review Form 1.6**

a

Journal Name:	<a href="#">Asian Journal of Biology</a>
Manuscript Number:	Ms_AJOB_34582
Title of the Manuscript:	<b>Analysis of morphological variability in five spontaneous Populations of Rubus ulmifolius Schott in Tunisia</b>
Type of the Article	<b>Original Research Article</b>

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

**SDI Review Form 1.6**

**PART 1: Review Comments**

	<b>Reviewer's comment</b>	<b>Author's comment</b> ( <i>if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here</i> )
<b><u>Compulsory</u></b> REVISION comments	<ul style="list-style-type: none"> <li>- How did you proceed with the selection of your descriptors? Ten descriptors are not sufficient. –</li> <li>- Look for those of IPGRI regarding your species.</li> <li>- use IPGRI's descriptors and reanalyze the data</li> </ul>	
<b><u>Minor</u></b> REVISION comments		
<b><u>Optional/General</u></b> comments	The study is focused on the morphological diversity of a multivaluable plant ( <i>Rubus ulmifolius</i> ). What is the interest of this study because several characterization's works, with sometimes the use of more robust tools (molecular, chemical...), were carried out on this plant. Authors must provide a sound scientific rationale for this work and present its specificity
