

**Editor's Comment:**

I thank you sincerely for your kind request concerning my editorial decision for **Manuscript number 2017\_AJSSPN\_33653, Title:**

**Iron Overload in the Root Environment of Rice (*Oryza sativa*- L) with a Miserable Nutrients Specification.**

I have verified the revised version Manuscript with authors' corrections added according to reviewers' comments.

I recommend authors to delete "**Table**" from the subtitle **Figure and Table Captions** presented on the page 11 in view of lack of the Table in the text of Manuscript.

I support the publication of revised Manuscript in the [Asian Journal of Soil Science and Plant Nutrition](#).
