**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	This is quite a good paper which needs only a few amendments. First, the text that now appears as footnotes should be incorporated into the main body of the text. Footnotes should not be used in academic papers apart from specific exceptions. Second, the section of the literature review which simply lists previous studies and their results should either be rewritten to provide a purpose for these studies to have been included in the paper or else deleted. The conclusion should incorporate the research limitations and the suggestions for future research. The list of references should be checked to see if some do not appear in the text in the form of in-line citations.	
<b>Minor</b> REVISION comments		
<b>Optional/General</b> comments
