General guideline for Peer Review process:

This journal's peer review policy states that NO manuscript should be rejected only on the basis of 'lack of Novelty', provided the manuscript is scientifically robust and technically sound.
To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

### PART 1: Review Comments

<table>
<thead>
<tr>
<th>Reviewer's comment</th>
<th>Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</th>
</tr>
</thead>
</table>
| **Compulsory REVISION comments** | - Statistical analysis of the results was better than the classical statistical designs are also used.  
- The defects change the wording there. Better yet, you can overcome these problems.  
- Writing a better article.  
- Experimental plan will be explained better and fuller.  
- Introduction to be explained more. |
| **Minor REVISION comments** | - The source number is sufficient and appropriate.  
- Material and Method is stronger and more relevant. |
| **Optional/General comments** | Please clarify the ethical issue, if any |

### PART 5: Reviewer Details:
