**PART 1: Review Comments**

<table>
<thead>
<tr>
<th>Reviewer's comment</th>
<th>Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</th>
</tr>
</thead>
</table>
| **Compulsory REVISION comments** | Title of the article can be modified to make an impressive one.  
Recheck referencing style in the text  
In next psychological ages, another combinations constellation of functional deficits was fond—clarify  
No kinds of statistic or psychometric tests were applied for the assessment.- explain  
Why initial and assessment after 4 months? Was there any intervention in between? |
| **Minor REVISION comments** | In the verbal conflictive task, the child has to make one *heat* on the table? to make two *heats* on the table if he *ore* she hears the word “white”.  
**Last studies** have shown that the organisation of material on paper depends on appropriate functioning of posterior parts of write hemisphere [37].  ? |
| **Optional/General comments** | Improvement in result and discussion part are required with more literature. |

As per the guideline of editorial office we follow VANCOUVER reference style for our paper.
