| **Introduction** | 1. Do not use old references to indicate a current situation (e.g. The flora of Saudi Arabia is considered to be the richest in the Arabian Peninsula, and include important genetic resources of crop and medicinal plants (Zahran, 1982). Other such examples occur regularly throughout the paper.  
2. What is the problem statement for this study? Why is this information needed? Why is this study needed?  
3. There is a need to use more up to date references (2012-2017)  
4. For further issues refer to the reviewed manuscript. |
| **Materials and methods** | 5. Figure 1 does not indicate 28 localities  
6. Figure 1 contain a Table, and should be numbered as Table 1, separately from Figure 1.  
7. For further issues refer to the reviewed manuscript. |
| **Result and discussion** | 8. Systematic composition results should be discussed immediately after the presentation of notable results. The same goes for all other sections.  
9. The discussion presented in this paper is vague, superficial and do not relate directly to the obtain... |
