

**SDI Review Form 1.6**

Journal Name:	<a href="#">International Research Journal of Pure and Applied Chemistry</a>
Manuscript Number:	Ms_IRJPAC_39549
Title of the Manuscript:	Development of thermal properties and surface morphology of Poly(L- lactic)/Chitosan blend with Microcrystalline cellulose obtained from natural jute fiber
Type of the Article	Original Research Article

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

[SDI Review Form 1.6](#)

**PART 1: Review Comments**

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments		
<b>Minor</b> REVISION comments	<p>The paper deals with the influence of MCC on thermal stability of Poly(L- lactic)/Chitosan blend, which may improve the property of the Poly(L- lactic)/Chitosan blend for applications. So I support it to be published in the journal after minor revision.</p> <p>1, The figure 3 and table 3 belong to the double description, please omit figure 3;</p> <p>2, Figure 2 is the Thermo gravimetric analysis without vertical axis tick labels , please add the vertical axis tick labels and describe the weight loss percentages in the context or in the figure, it is important for the comparison of the stability.</p> <p>3, figure 4 and 5 are also without vertical tick labels;</p>	
<b>Optional/General</b> comments		

**Reviewer Details:**

Name:	<b>Yongchun Zhu</b>
Department, University & Country	<b>Chemistry, Shenyang Normal University, China</b>
