

**SDI Review Form 1.6**

|                          |  |
|--------------------------|--|
| Journal Name:            | <a href="#">Journal of Advances in Biology &amp; Biotechnology</a>                                       |
| Manuscript Number:       | Ms_JABB_43608  |
| Title of the Manuscript: | Harvesting of <i>Chlorella variabilis</i> Biomass by <i>Moringa oleifera</i> Seed-Induced Sedimentation. |
| Type of the Article      | Original Research Article  |

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

**PART 1: Review Comments**

|                                     | Reviewer's comment   | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|-------------------------------------|--|---|
| <b>Compulsory</b> REVISION comments | In figure 2, why did the concentrations affect the sedimentation time of the powders, but not of the filtered? |   |
| <b>Minor</b> REVISION comments      | In figure 4, why was there no difference in sedimentation time between 7g/L and 10g/L?                         |   |
| <b>Optional/General</b> comments    |  |   |

**Reviewer Details:**

|                                  |                     |
