

SDI Review Form 1.6

Journal Name:	Journal of Advances in Biology & Biotechnology
Manuscript Number:	Ms_JABB_43882
Title of the Manuscript:	Biochemical and Molecular Evaluation of the Plant Ecballium elaterium Extract Effects on Escherichia coli
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>The research article is written in proper and articulate form. It highlights the requirements of current research and trends on this particular area of concern. Therefore it is requested that the author observes the minor changes and that be accepted for publication and further necessary action.</p> <p>State the author's contribution and the institutions they are affiliated to just below the title of the article.</p> <p>The author should italicize the microbe <i>E. coli</i> particularly on 3.2.1, 3.4 and 3.4.2 sections and subsections respectively</p> <p>How does the genotypic effect of <i>E. elaterium</i> leaf and fruit ethanolic extracts against the two <i>E. coli</i> strains using ERIC-PCR and SDS-PAGE compare?</p>	
Minor REVISION comments	Usage of plant sap is preferred to juice.	
Optional/General comments	N/a
