**Editor’s Comment:**

The manuscript (2017_ JAERI_38370) with a title of “Comparative performance of traditional post-harvest practices on the development of Callosobruchus maculatus in Vigna unguiculata and Phaseolus vulgaris seed from Paoua (Central African Republic)” has a sound review process. Comments of valued reviewers have strengthened the quality of the article accordingly, based on the reviewer's comments and all modification in the manuscript; It is my pleasure to say that mentioned research article is accepted for publication in JAERI.
