

**Editor's Comment:**

I have made numerous corrections and changes to the manuscript as required for the authors; See attached manuscript correction and the clean copy (correction 2). However, the authors still need to address the comments I made in the clean copy before the manuscript is accepted for publication. They can use the clean copy to make the corrections.

**Editor's Details:**

Dr. Adekunle Sanyaolu  
Epidemiology Division, Nigeria Center for Disease Control, Federal Ministry of Health, Abuja, Nigeria
