

Editor's Comment:

The authors did not make any correction to the manuscript as advised. I have attached the clean copy again. They should use only this copy for correction. There are 5 comments in it which they must address before the manuscript can be published. Kindly ensure that these corrections are made and highlighted before they send it to me again.

Editor's Details:

Dr. Adekunle Sanyaolu
Epidemiology Division, Nigeria Center for Disease Control, Federal Ministry of Health, Abuja, Nigeria
