PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Table 1 needs clarification. There are multiple numbers listed within each category of the Leppilahti scale for both open and minimally invasive surgery, but it is really not clear what they mean.	
Minor REVISION comments	Table 2 is good, but I think that adding gridlines might make it more visually appealing and easier to follow.	
Optional/General comments
