**PART 1: Review Comments**

	<b>Reviewer's comment</b>	<b>Author's comment</b> <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<b>Compulsory</b> REVISION comments	<p>The introduction requires further information to support the involvement of miRs in cell transformation and how they participate to induce expression of CD4 and CD117.</p> <p>FIG. 2 is not clear. Authors should decrease the number of cells and zoom it to see more clearly how they are changing and indicate it with arrows. Also indicate the micrometers to which the cut corresponds.</p> <p>Graph 1 requires to show the significant differences and whether the changes correspond to miR125 or miR155, and so on.</p>	
<b>Minor</b> REVISION comments	<p>Remove the I and put it was realized instead...</p> <p>There is no objective of the work, the authors must include it</p>	
<b>Optional/General</b> comments
