

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	Journal of Cancer and Tumor International
Manuscript Number:	Ms_JCTI_35217
Title of the Manuscript:	Macroscopic & Microscopic molecular-associated treatments of Monosodium Glutamate-induced uterine fibroid via aqueous extract of ginger rhizomes: A study on adult female wistar rats
Type of Article:	Original Research Article

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
<p>Introduction: figure 1.0 is missing.</p> <p>2.3 Procurement and administration of Ginger extract: authors should indicate whether the aqueous extract of ginger results from the cold maceration of the mixture, from a decoction or an infusion. They should also indicate how they proceed to prepare the extract (doses) they administered to animals.</p> <p>2.8. Statistical analysis: authors should indicate that results are presented as mean ± E.S.M or S.D.</p> <p>Revise the references.</p>	<p>The figure 1.0 is in the manuscript</p> <p>2.3 Procurement and administration of Ginger extract: The dried ginger rhizome was procured in ground powdered form and mixed with distilled water and extracted from the cold maceration of the mixture.</p> <p>2.8 The results are presented as mean + S.E.M</p>
