

SDI Review Form 1.6

Journal Name:	Journal of Cancer and Tumor International
Manuscript Number:	Ms_JCTI_38725
Title of the Manuscript:	Ganglioneuroma of Deep Face- A case report
Type of the Article	Case study

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	There are many errors of the description, such as punctuation and space. Discussion included only general description of ganglioneuroma and ganglioneurobalstoma. There is no discussion of presented case. How much rare is this tumor location? Is there any similar case report? Figure 1 showed CT bone density and MRI. Detailed description of these imaging modality and finding should be included. There figures seem to be deformed, and are not exact proportion. Tumor location may be clearly observed using other imaging modality, such as enhanced imaging.	
Minor REVISION comments	Pathological figures also should not be deformed.	
Optional/General comments	All abbreviation should be fully spelled out at first appearance.
