**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<ol style="list-style-type: none"> <li>1. The grammar is very poor and should be corrected; I suggest he give the work to an English language specialist to prove read.</li> <li>2. The author should let us know the classification of the CBT seen in this case.</li> <li>3. This is a case report and not a review article as reported in the abstract.</li> <li>4. The heading "case presentation "in the abstract should be expunged and replaced with RESULT.</li> <li>5. Reference should be provided for the types of CBT mentioned in lines 25-29.</li> <li>6. Any reference that this tumor is rare? (lines 18 and 107).</li> <li>7. You did not tell us if this case was benign or malignant.</li> <li>8. You did not tell us the condition of the patient as at the last appointment.</li> </ol>	
<b>Minor</b> REVISION comments	<ol style="list-style-type: none"> <li>1. Case presentation should be made to flow sequentially.</li> <li>2. Do not report all the details of the CT scan and neck angiography.</li> <li>3. Discussion : what is CBDS (line 115).</li> <li>4. What are the other indications for the choice of radiotherapy in the management of this tumor?</li> <li>5. Clinical pre and postoperative pictures should be provided.</li> <li>6. References for a case report should not be more than 10.</li> </ol>	
<b>Optional/General</b> comments	The work could have been better but it is poorly executed.
