

**The final decision for manuscript number 2017\_JEAI\_38489** entitled 'Breeding of Tomato for Resistance to Bacterial Wither' later 'Botany and Breeding of Tomato to Obtain Genotypes Resistant to Bacterial Wilt' written by Kleyton Danilo da Silva Costa, Jackson da Silva, Ana Maria Maciel dos Santos, José Luiz Sandes de Carvalho Filho, Paulo Ricardo dos Santos, Michelangelo de Oliveira Silva

Following evaluation of all documents related to the manuscript I agree with the Reviewers that the manuscript is acceptable for publishing in Journal of Experimental Agriculture International. The manuscript is corrected with accordance of reviewers' suggestions and requirements. However, CONCLUSIONS must be rewritten to better summarizing of the manuscript. Additionally, AUTHORS' CONTRIBUTIONS should be added.

My decision is Accept after minor correction.
