

Editor's Comment :

See in the attached document some few comments and suggestions made to improve quality of the paper.

In general all reviewers made a good assessment of the paper with a mark of 8. Paper can be published after the minor revisions suggested.

Has suggested by one of thes, abstract seems to be too short and can be improved.

Author has produced good results but a language review should be considered to make the paper clearer and easier to understand. Special attention should be paid to the conclusions chapter, to improve language but also to better explore the good results obtained in the formulation of the conclusions.

Comments made must be seen as a contribution to improve quality of the paper.

Author's Feedback :

Thank you for sending us the referees' report on our manuscript .

Yes, one reviewer has suggested the abstract is too short. We have extended the abstract marked with yellow background.

We have tried our best to improve language in the conclusions. The additional results on solvents were also summarized in the conclusion.
