

Editor's Comment:

I have reviewed the revised manuscript and comments of the referees. I have following comments,

1. Revised manuscript is approved for publication.
2. Few minor suggestions are as under,
 - a) A line diagram or schematic diagram of Experimental set up used for adsorption studies to be provided in Experimental section.
 - b) Few more recent references (2016 to 2018) to be incorporated in Reference Section if possible.
