**General guideline for Peer Review process:**

This journal’s peer review policy states that **NO** manuscript should be rejected only on the basis of ‘lack of Novelty’, provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline)
### SDI Review Form 1.6

**PART 1: Review Comments**

<table>
<thead>
<tr>
<th>Reviewer's comment</th>
<th>Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</th>
</tr>
</thead>
</table>
| **Compulsory REVISION comments** | (1) The last paragraph of the Introduction should be revised to present only the objective of this study (not shows the results).  
(2) The Results and Discussion section should be rearranged. Some of the paragraphs should be moved to the Introduction (e.g. Line No. 108-115) and the Methodology (e.g. Line No. 117-122).  
(3) The results of this study should be discussed and compared with the previous studies (pros and cons?) for more impact.  
(4) In general, the concentration should be presented in mg/mL (or related unit) of vitamin B6. The molar concentration is complicated to understand. |
| **Minor REVISION comments** | (1) Page 2 Line 58-63: Please adjusts the format to present the address of company as (City, State or City, Country).  
(2) The description of the aqueous health nutritional samples and vitamin tablet samples should be given.  
(3) Sample preparation should be written in section 2.2. |
| **Optional/General comments** | (1) All references should be in the same format and style. Please, checks.  
- No journal title in Ref [5].  
- Incorrect journal abbreviation in Ref [8-13.  
(2) Please, checks “B6(subscript)” throughout the manuscript.  
(3) The description of Fig. 1 should be shortened. Some of the sentences are not related to the Figure.  
(4) Fig. 4 Please checks the Y-axis scale.  
(5) Fig. 6 is a poor resolution. Please corrects. |

As per the guideline of editorial office we have followed VANCOUVER reference style for our paper.
