Editor's Comment:
Taking into account the evaluation process and two positive review reports, I recommend the manuscript 2017_JSRR_33238, entitled: Survey on the intake of food additives by college students over a week by Masafumi Tateda and Ryoko Sekifuji for publication in Journal of Scientific Research and Reports. However, in the current form, technical correction of the manuscript is necessary. Placement of figures and their captions should be corrected.
