### Journal Name:
Microbiology Research Journal International

### Manuscript Number:
Ms_MRJI_37796

### Title of the Manuscript:
Evaluation of antibacterial activity of Piper betel leaves and Nigella sativa seeds against multidrug resistant food and water borne pathogenic bacteria: An in vitro study model

### Type of the Article
Original Research Article

---

**General guideline for Peer Review process:**

This journal’s peer review policy states that **NO** manuscript should be rejected only on the basis of ‘lack of Novelty’, provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

### PART 1: Review Comments

<table>
<thead>
<tr>
<th>Compulsory REVISION comments</th>
<th>Reviewer’s comment</th>
<th>Author’s comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td>I congratulate the authors for their work. The research of new ways to control multi resistant organisms is essential to human and animal health. The authors could change the caption of Figure 1. Put the caption in grayscale.</td>
</tr>
</tbody>
</table>

---

### Optional/General comments

---

### Reviewer Details:

<table>
